

# LAP-TEQ MOTION SYSTEM

The LAP-TEQ MOTION has three available **LAP-TEQ PORTs** on his frontplate to connect your different LAP-TEQ Sensors.

# LAP-TEQ MOTION REMOTE

- The remote is very compact and can be operated with one hand
- 1,8" TFT display to read out the LAP-TEQ Sensor Data.

## THE LAP-TEQ MOTION

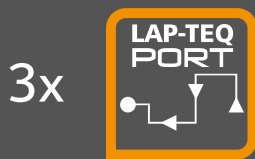

### PROFESSIONAL RIGGING REMOTE CONTROL

LAP-TEQ MOTION is a rigging remote control system for up to 16 chain hoists according to BGV D8 or igvw SQ P2 D8+.

The system included a compact & rugged remote control with integrated LAP-TEQ read-out display and a 19" 1 U receiver rack module. Remote control and rack module are connected via a 7pin XLR cable.
